

# SHIPHAWK WMS AND ADVANCED SHIPPING SOFTWARE

## EXTENDED PROFILE

## OVERVIEW

ShipHawk provides robust warehouse and fulfillment features to meet the needs of high-growth companies and their unique challenges. By integrating directly with your ERP, you gain full transparency across your fulfillment process on everything from shopping cart rating, omnichannel customer management, workflow automation, and tier 1 WMS functionality.

ShipHawk focuses on giving businesses access to the same tools and efficiencies used by the largest companies in the world. ShipHawk works with high-volume retail, wholesale, and eCommerce companies using an ERP. ShipHawk delivers much more than warehouse and fulfillment solutions. We deliver skilled industry expertise to dramatically improve your operations and outcomes. We do this by understanding your business and offering practical automation and efficiencies that can save time, decrease costs and improve labor complexities.

## KEY FEATURES

- ERP integration and end-to-end visibility (orders → warehouse → shipping).
- Multi-carrier rate shopping, automated cartonization (smart packing), and shipment booking.
- Directed receiving and putaway, license-plate tracking, and cycle counting.
- Multiple picking strategies (wave, batch, cluster) plus scan/pack verification.
- Support for parcel, LTL, and freight workflows; EDI and document handling for 3PLs.
