EXPLOREWMS

ODOO INVENTORY EXTENDED PROFILE

odoo

OVERVIEW

Odoo Inventory is Odoo’s warehouse management and inventory module. It aims to maximize warehouse efficiency via its open-source inventory management software by offering users a double-entry inventory system.

The Odoo Inventory software has no stock-in, out, or transformation system. Instead, the operations are handled as moves between locations. This allows users to track stock from purchasing, through to warehouse bins, and onto sales orders, all from one system.

Odoo’s inventory management system integrates with other Odoo modules, such as Sales, Purchase, and Accounting, and offers integration with many third-party 3PL systems.

As an online WMS, Odoo Inventory can be accessed via any device with an internet connection. Users can use the WMS on a free plan and add additional business process modules at a cost.

IS ODOO A WMS?

Odoo is a suite of open-source software covering all areas of a business, from finances to sales. Odoo Inventory is its open-source inventory management module, which acts as a WMS.

CAN I USE ODOO FOR FREE?

Your first Odoo module is free, including Odoo Inventory. However, if you’d like to install more Odoo apps, you’ll have to pay for them.
