EXTENSIV 3PL WAREHOUSE MANAGER

EXTENDED PROFILE

OVERVIEW

Extensiv 3PL Warehouse Manager is the industry-leading, cloud-based warehouse management system (WMS) designed to meet the specific demands of the 3PL (third-party logistics) warehousing community. Acting as the operational backbone for its customers, it helps 3PLs transition from paper-based, error-prone processes to efficient, customer-centric operations that promote faster growth and higher customer satisfaction.

Extensiv 3PL Warehouse Manager has over a decade of success, processing 1 million+ orders weekly and managing billions in inventory. It offers seamless inventory control and automation, helping 3PLs scale efficiently. On average, clients grow orders by 22% yearly and save 161 hours per month by automating manual tasks.
